Something of Interest to Local Members of the Militia.

Concerning the Encampment

Of the National Guard at Island Lake
Proposed Association of Militia
Officers—Other News.

Orders giving instructions and details in regard to the annual encampment of the Michigan National Guard have been issued and will be read with interest by the members of the local militia company.

Camp will commence on Wednesday, August 11, and continue for five days. This means that the local company will leave on Sunday, August 8, if they go by the same route as last year. Camp this year will be held a few weeks earlier than on previous years.

The orders note particularly concerning the forced march or tour of instruction, as it is called, that each regiment will have to make. Blank ammunition will be issued as it interests the men in firing discipline. The expectation is that each regiment will be ordered out for part of a day and a night in the forced march and will be required to spend the night in an improvised camp. The commanding officers of the regiment will be required to make a careful report of the march and the night's camp. An officer will also be detailed to take field notes and sketches and keep a journal of the march.

The troops will go to camp in fatigue uniform and officers will not bring dress uniform to camp. No ladies will be allowed in camp and no accommodations will be furnished for ladies of officers' families, as has been the case previously, except as visitors when such are allowed inside the lines.

Instruction in rifle practice at target ranges will be given at camp.

General Lyon and the other local officers of the National Guard have received invitations to attend a meeting to be held at Grand Rapids to form an officer's association. The association would be a good thing for the officers and thus indirectly be good for the State militia.

The purposes of the organization will be to develop and increase interest in the Michigan National Guard; to formulate and solidify sentiment, the practical working of which will be to better the condition of the National Guard; to lead to a better acquaintance among the officers now in the service; to call to the aid of the National Guard the experience and service of regular army officers and those who have served as officers of the National Guard of other States, and to take such steps as will lead to a better public sentiment and more adequate legislation on behalf of the organization and military power of the State.

Grand Section Meeting

The meeting of the grand section of the Junior Temple of Honor and Temperance which has been in session at Lake Linden since Thursday, has finished its business and adjourned. The meeting was attended by delegates from the iron and copper countries.

Following are the officers elected for the ensuing year:

Grand Governor—William Walters, Ishpeming.
Recorder—William Blaney, Ishpeming.
Assistant Recorder—Al Walters, Ishpeming.
Treasurer—Richard Lobb, Calumet.
Usher—Roscoe Brewer, Ironwood.
Sentinel—Samuel Shepard, Hancock.
Chaplain—Harry King, Calumet.

Several of the delegates from the iron country are spending a few days visiting friends here.

The Grand Temple is also in session at Lake Linden and will probably complete its work today.

Nothing of importance besides routine work and the election of officers was done at the meetings.

A Gentle Reminder.

Please bear in mind that the bills announcing the pleasure trip to Chassell given under the auspices of Court North Star of Red Jacket, No. 17, are in the hands of the printer. Chassell is something new in the line of excursion trips, and it will be well to remember that there is no place along the lakes that affords a better place for a day's recreation and pleasure.

Mr. George C. Bentley having granted the society the park, which consists of several acres of nicely cleared land, surrounded by natural woods, in which to spend the day there will be about five hours' stay. Dancing on board the snow in which all lovers of terpsichore will have an opportunity to enjoy themselves, Mr. James Biney acting as prompter. The famous Fifth Regiment band will furnish music for the occasion, and a general good time is assured all who take in the trip. Tickets for the round trip, 50 cents; children, 25 cents.

COMMITTEE.

Bicycle Meet Next Week.

Considerable interest is taken by local bicycle enthusiasts in the meet to be held at the Athletic park next Saturday under the auspices of the Tamarack athletic club and the list of entries already shows many of the best local riders.

The program of events and the list of prizes are as follows. The prizes will be in orders for the different amounts in merchandise at any store in town.

Salvation Army Notes.

Special meetings will be held tonight and all day tomorrow, led by Adjutant and Mrs. Sheppard assisted by Ensign Berriman.

The sister soldiers of the army are busy arranging for the big ice cream festival and meals which will be served at the hall as usual on the Fourth of July.

The officers have arranged for an excursion to the Entry to take place either August 7, or 14.

Will friends having mercy boxes please return them to the adjutant or T. Wills, Jr., not later than Tuesday next?

A story comes from the fishing location near the Lake Superior water works, of a fisherman picking up a couple of large pieces of solid metal, one of copper and another of mixed silver and copper. Both pieces were almost round in shape and several inches in diameter. They were smooth and apparently had been washed up on the shore by the waves.

Mr. Thomas Wills evidently has an artist in his employ, that is judging from the manner his store windows were decorated last night, when passing there last night the editor happened to look up and from the way the window was fixed almost imagined he was in State street, Chicago.

From now until the annual encampment, the Calumet Light Guard will drill twice a week, on Tuesdays and Thursdays. This will get the boys in condition to make a good showing at camp. The next regular drill will be on Tuesday evening.

Mrs. Steimel's funeral will take place on Sunday afternoon. The procession will leave the house at 2 o'clock, services at the Calumet Congregational church at 2:30 by the pastor, Rev. Dr. Hunter. Interment at Lake View cemetery.

A News reporter saw some work done by one of Professor Ray's pupils this morning and it was remarkably fine. The work was systematically well done and the pupil had only taken a few lessons.

The funeral of the late Mrs. Anna M. Long was held yesterday afternoon. Services took place at the Finnish Lutheran church on Pine street and the remains were interred at Lake View cemetery.

Why Send To The City?

You Can Buy Here As Cheap

And very often cheaper. The city merchant has very few facilities for buying and selling which the merchants of your town do not also possess. In fact the advantages are all on our side. We pay no rents and our general expenses are much less. Why then even think of sending to the city when you can buy here for less money and with greater safety and better satisfaction. We ask no one to trade with us because we are in business in this neighborhood. We do not ask your patronage as a right, that sort of thing is too ancient with us. But we do ask you to come here because it pays to buy at Vivian's. These items and prices speak for themselves.

The Advance!

A Perfect Beauty From Any Point of View. Good Points Contained in the Advance.

1. The top frame tube is shortened, which brings the rider more directly over his work, enabling him not only to use his muscles to work with, but also the weight of his body. It also stiffens the frame and gives the rider a general feeling of power and stability when riding.
2. Flush joints and reinforced in such a thorough manner that frame is remarkable strong.
3. Fauber crank and hanger, this is so well known comments are needless.
4. We give you as good a chain as there is made. It is the Indianapolis Steel company's chain.
5. Arch fork crown, combining strength and elegance.
6. Hubs turned out of solid steel; cones and ball rolls turned out of solid tool steel, carefully tempered. All bearings ball retaining.
7. Handsome and elegant finish. Every wheel receives four coats of enamel, which insures a good permanent appearance.

We could enlarge further on the many good qualities of our wheels, but inasmuch as we have the samples, we leave them to speak for themselves.
